

24th of July, Sao Paulo, Brazil

"ON-BLOCK GmbH, Austria and its contractor Fraport AG, Germany worked at TPS 3 – São Paulo International Airport, conducting the trials, during the commissioning phase. They were more than 20, simulating all the airport operations, and took 2,5 months: This is a world record!

Even implementing at the same time of construction conclusion, the results of those trials were fundamental for the success of our Go Live."

A handwritten signature in black ink that reads "Antonio Miguel". The signature is stylized and cursive.

Antonio Miguel Marques
CEO, GRU Airport
